**MASSAGE
CHAIR**

VOICE CONTROL & RECOGNITION

Intelligent voice recognition system makes it easier to control the massage chair to enjoy the comfort;
 Voice-control wake-up button: press this button to wake up the voice control function and press for 3 seconds to turn the function on or off. if no valid voice entry is recognized within 6 seconds, the voice function is automatically turned off (This button only works after The voice control function turned on.)

ZERO SPACE

Zero gravity model means, the legs and torso at 118 degrees elevation, the location of thighs and calves are above the heart. The gravity of each body part will distribute average on massage chair to make pressure on body fully release.

ZERO GRAVITY

The 135° and 118° zero-gravity angles that simulate spaceflight make the thighs and calves higher than the heart part of the body as if in a state of "weightlessness", making the spine free of pressure and achieving deep relaxation.

LEG STRETCH

When the legs are pulled out with the pedals, the legs will rise (the opposite direction to the feet) together with the stretching of the feet. The stretching length of the feet relies on the length of the user's legs.

"SL" SHAPE CURVED RAIL

The guide rail of the backrest frame adopts curved guide rail technology, which completely conforms to the back of the human body and makes people enjoy a massage from the head to the thigh.

EMULATIONAL MASSAGE FUNCTION

Double V type massage hand deep massage feeling
Equipped with emulational massage techniques such as 3D, shoulder grasp knead, tap, knead & tap and shiatu.

PRECISE MASSAGE POINT

Equipped with a new generation of intelligent detection system, detecting different body shapes of people and sense body curve automatically to achieve precise massage.
