VOICE CONTROL

Intelligent voice recognition system makes it easier to control the massage chair to enjoy the comfort

"SL" SHAPE CURVED RAIL

The guide rail of the backrest frame adopts curved guide rail technology, which completely conforms to the back of the human body and makes people enjoy a massage from the head to the thigh.

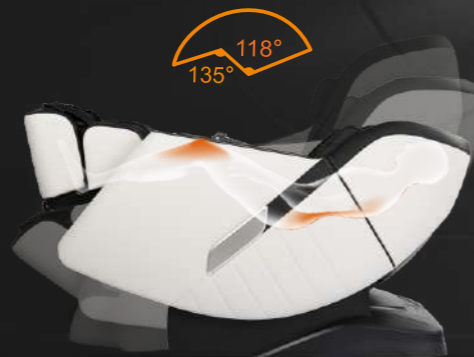

LEG STRETCH

The lower leg frame is provided with a spring retractable adjustment function. The length for the user to stretch out his/her feet is dependent on his/her feet, and the user stretches back his/her feet by spring force.

SEPARATE LIFTING ADJUSTMENT

It is provided with a separate lifting adjustment function for the lower leg frame, linkage lifting adjustment function for the backrest frame, and zero-gravity automatic lying angle adjustment function.
